# CHANGES

It's been four years since we walked through the doors on August 30, 1994. Now the time has come for us to depart the halls of Thomas Snell Weaver High School. No other class at Weaver has seen more change than we, the Class of 1998.

As freshmen, we witnessed a new administration take place, and now once again as we leave as seniors. We have been through three different superintendents, a Board of Education, and a State Board of Trustees. EAI came and went, and fifteen minutes were added to our day (didn't you miss getting out at 1:54?). Some of us participated in the Million Man and Million Women March to show that change and unity is needed in our community. And we also stood our ground against authority to prove that we as students have a voice too.

Besides changes inside of school, we witnessed many changes outside. The clothes we wore changed from Cross Colours and Karl Kani to FUBU, Perry Ellis, Heaven and Hell, and Tommy Hilfiger. In music, the "Flava was in our Ear" but then we found out that "It's All about the Benjamins". And during that time we witnessed the unnecessary and untimely deaths of two great hip-hop artists: Tupac Shakur and the Notorious B.I.G. who will never be forgotten because of their music. In sports, we saw the retirement and comeback of Michael Jordan, the 50th anniversary of Jackie Robinson breaking the color barrier in baseball, and Nykesha Sales take one more final shot at UCONN. But we also saw the "Mighty Beavers" go from a 3-7 record to win back-to-back State Championships with only one lost to account for. Finally, our language went from "phat" to "off the hook" as the "Killa Beez" came through to win the Battle of the Classes back-to-back to give true meaning to the phrase, "You Wanna Rumble wit' the Beez, Huh?"

But even through all the changes in school, clothes, music, sports, and language, the Class of 1998 has always considered themselves to be one thing: THE BEST! This book reflects "the best" of the Class of '98 throughout our four years here at Weaver High School. And as we go our separate ways, this book will express our joy, our laughter, and our good times, and show that for the Class of 1998, "SKY'S THE LIMIT".

2 all my peoples who chose 2 abort their education, go back N finish what U started ! There's nothing more essential N life; no feeling so self assuring. All rookies, B yourself, N treat everyone with equal respect, Weaver is such an exhilarating transition from middle school Use peers as examples both good N bad.

True, motivation N focus R hard 2 maintain, but try 2 separate yourself from the negative distractions that entice 1 2 act a fool. Don't let superficial nonsense like image, N friends cloud your perception of reality.

*Year in and year out,  
they're one of our  
best investments.*

America's youth. To us at Travelers, students are special. That's why our

philanthropic efforts are so strongly focused on supporting educational projects and programs, like the National Academy of Finance Program, that provides a quality education to over 8,000 inner-city students in 30 states and 136 high schools. Of course, at Travelers, we make a lot of other investments too. But we find, based on the returns, no other investment even comes close. The Travelers Foundation. Helping meet the critical needs of our youth as well as providing care and enrichment for their families.
